"The Complete Lean Enterprise"

"Best move I ever made for my business was to make Visual Solutions Resource, Inc. my printing and fulfillment service provider. I simply contact VSR with my order and the materials show up where and when I need them - always on time and with exceptional quality.

We used to spend hours each week running to and from copy centers, preparing training materials, and shipping them out. VSR has taken over this responsibility allowing us to spend more value added time with our customers, and relieving stress within our organization.

VSR has been a real partner over the years helping us to achieve a true professional look and appearance in all our training and consulting materials."

Lori Amerman, Illinois Manufacturing Extension Center

"I always consider VSR first for all of my printing needs. I know I will receive consistent high quality products that are reasonably priced. Most importantly, VSR works with us on special requests, while providing fast reliable service on our routine classroom material orders."

Ali "AJ" James, Purdue University Technical Assistance Program

"Professionalism topped with a personal touch makes Visual Solutions Resource, Inc. my trusted first choice when ordering lean training supplies and manuals."

Beau Keyte, Branson Inc.

Co-Author of Shingo Prize Winning Book:

"The Complete Lean Enterprise"

"They are very responsive to every request, including creating great graphics (from scratch!) for new projects in no time at all. I have ordered their supplies sent around the world and they have always beaten my expectations. They are the graphics, logistics, and publishing thought partners I have always wanted on my team!"
